

CYNDI YAG-HOWARD, MD FAAD

Advanced Dermatology and Skin Surgery Specialists, PA

Providing exceptional and compassionate care in a professional, friendly environment is what places Dr. Yag-Howard and her team at Advanced Dermatology and Skin Surgery Specialists at the forefront of dermatology.

Dr. Yag-Howard is a board-certified dermatologist and graduate of Duke University. She is on faculty at University of South Florida and is a nationally-recognized speaker and author on surgical techniques to achieve extraordinary cosmetic outcomes.

With an artistic eye and fastidious attention to detail, Dr. Yag-Howard is also an expert in facial sculpting. On the upper face, she uses Dysport® to relax the muscles for a restful, youthful look that lasts 3-4 months. On the lower face, she uses Restylane® and Perlane® to fill in folds for an immediate, dramatic improvement lasting 6-12 months. To address sagging, tired-looking skin, she uses Sculptra® to beautifully restore volume to the cheekbones and chin for a glow that will last about 2 years.
